

9-2-22

Dear Patrons,

Seasons will soon be changing; cooler temperatures and harvest time will be on the mind of many. We will continue to fill your scheduled propane tanks in preparation for the soon to come heating season. I will be keeping our New Horizons Propane Bulk plants in ample supply for your needs as corn drying and winter approaches. If you have a **corn drying** contract and have room in your tank for a delivery, please let us know and we can make sure your LP is in the tank when you are ready to harvest.

Our 8 Convenience stores continue to be very busy with local travelers and patrons fueling up on Premium Diesel Fuel, Top Tier Gasoline and quality Deli Fresh food served daily. If you haven't been in one of our stores lately, I encourage you to stop in and try one of our daily specials or a slice of our freshly made pizzas. If you're in charge of dinner this week save some time and grab a Take and Bake Pizza to enjoy at home.

While visiting our convenience stores check out our new loyalty program. **Our New Horizons Plus Rewards** program is convenient and easily accessible through our mobile app on your cell phone or new loyalty card issued at our store locations. This program offers a discount on gasoline gallons purchased at our stores keeping more of your hard-earned cash in your pocket. Download the Mobile app by searching **Horizons Plus Rewards** on your App store or Google Play on your phone.

New Horizons just wrapped up another fiscal year. I look forward to reporting a solid, positive year in the coming months as we work through our year end processes. Thank you for your continued patronage, we look forward to another great year together.

As always, Thank you for your patronage.

Sincerely,

Jason Cullen

CEO/General Manager
