

5-1-2026

Dear Patrons,

The New Horizons team is eagerly anticipating the spring-summer season. Our Refined Fuel division has been working diligently to ensure that your farm and business fuel tanks are fully stocked as we approach the planting season.

Our Propane division is already preparing for next year's heating season. We are taking advantage of the off season to maintain our propane bulk plants and adding safety measures to keep our employees and communities safe.

A lot of hard work happens in Southwest Wisconsin this time of year. I hope you all can find time to make some memories with family and friends. Whether you're staying nearby, visiting local attractions or preparing for a long-distance vacation, New Horizons is here. We welcome you to stop at any of our 6 Locations for Gas, Fuel, Supplies and Great Food as you travel throughout our beautiful state.

New Horizons is pleased to announce this year's scholarship recipients. Congratulations to:

**Emily Retallick - Cassville**

**Cayley Carter - Riverdale,**

**Cheyann Hautakker - Cuba City**

**Clint Mitchell - Wauzeka-Stuben**

**Lily Miller - Platteville**

**Molli Hooker- Wauzeka-Stuben**

**Damon Marr - Dodgeville**

**Storm Marshall-Buss - Belmont**

Congratulations to all area graduates and Good Luck in your future endeavors.

In addition to this year's scholarship awards I am proud to share with you that New Horizons again has teamed up with Darlington High School FFA. New Horizons owns a small partial of land just east of our bulk plant on Hwy 81. There are many students that grow up on active farms and see planting and harvesting firsthand. There are also many students that have a strong interest in agriculture but haven't had the same opportunities. New Horizons is very proud to donate the use of land to the education of our future Ag leaders. We look forward to helping sponsor this project for years to come.

Thank you for allowing us to serve you. Your patronage keeps us strong as a cooperative! We look forward to giving back to our community again this year. Keep in mind, dollars spent with your cooperative stays here in our local communities.

As always, thank you for your patronage.

Sincerely,

*Jason Cullen*

CEO
